OVERVIEW

See what you've been missing with 247's OmniView360°. Together with ZEUS Platinum get true 1080p High-Definition coverage of every seat of your bus. With best-in-class audio and the sharpest images available OmniView360° allows for the finest event re-construction.

OmniView360° offers a valuable solution, providing better coverage than ever (including looking down into high-back seats). The OmniView360° wide-angle coverage ensures that important incidents are captured in all locations inside the bus.

KEY FEATURES

- Low Profile, Less than 3/4 inches
- Detailed coverage 'Down' into all seats
- Best-in-class high-resolution images
- Best-in-class 'Night' vision
- Best-in-class Audio

*OmniView360° – Seeing is Believing!

OMNIVIEW

OMNIVIEW360°—GREATER THAN 360°

OmniView360° with **TruView**

TruView Middle View

TruView Front View

TruView Back View

OmniView360°'s TruView feature takes the areas of interest and de-curves the scene into a distortion-free natural image that is much easier for users to see and interpret events (as is the case with a standard image). With TruView, you get clearer, truer images; with the additional benefit of greater coverage—all on one camera!

Standard 247 Camera View

Clear sharp images. Standard on all 247 Cameras. TruView images comparable to our standard cameras.

OmniView360° Image, before TruView

Even in its raw format, OmniView360° delivers a clear sharp view of virtually the entire bus

Sample of Typical 360° Camera

Conventional 360° cameras are no match compared to 247's OmniView360°

Typical 360° cameras have far fewer pixels and much more distortion
